LAKE OF ISLES SCOUT RESERVATION STAFF

The 1961 season revealed the largest camp staff in Council history for the first five weeks. Program staff people were added and were responsible for the effective Scouting experience we were able to offer the boys.

The success of the 1961 season is due to their enthusiasm and leadership.

In reviewing the number of Charter Troops and Provisional Troops in camp I would make the following recommendations:

1. The number of Provisional Units in each camp be limited to three (3). This would allow the director to secure more and better qualified program staff to bring us up to the recommended minimum goal of 1¼ program people per unit.
